DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.

2. The following is an examiner's statement of reasons for allowance:

U.S. Patent Application Publication No. 2001/0033355 to Hagiwara teaches a similar system to that of the present application. However, with respect to independent claim 1, Hagiwara, as well as the other prior art of record, fails to teach or suggest the combination of a first terminal group, a second terminal group positioned adjacent to the first terminal group, wherein the second terminal group comprises a first plurality of connecting terminals, and a third terminal group comprising a second plurality of connecting terminals, wherein only each of the first plurality of connecting terminals are directly connected to a corresponding one of the second plurality of connecting terminals via at least one wire on a common substrate, wherein a connection end of the tape carrier package is connected to the first terminal group and the second terminal group, and wherein a flat cable for external wiring is connected with the third terminal group. Therefore, independent claim 1, as well as all respective dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2821

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
